

Communicate anywhere™

New generation Thuraya handsets

Thuraya's new state-of-the-art phones are the first and only satellite mobile handsets to offer GmPRS (Geo mobile Packet Radio Service) providing continuous Internet connectivity at speeds of up to 60 kbps.

With GmPRS, you can now make voice calls, browse the web, send and receive email, and even access your corporate network, all via the same Thuraya handset anywhere in over 110 countries.

Enjoy always-on Internet connection and a wide range of applications including:

- web browsing
- email, webmail
- content downloading
- File Transfer Protocol (FTP)
- Virtual Private Network (VPN)
- e-commerce

GmPRS is ideal for professionals on the move such as journalists, oil and gas workers, mining teams, NGO personnel and anyone working remotely in places with limited access to traditional telecom services.

SG-2520: all-in-one smart phone

The SG-2520 is designed for everyone who needs a combination of satellite connectivity, GSM and GPS technology offering all the new features that come with today's high tech phones.

Latest features: Using the 1.3 mega pixel camera with 5x digital zoom, you can snap special occasions and share them with family and friends as an email attachment or MMS. You can also run the advanced media feature to play video clips and slideshows in real time.

Sleek & stylish: An impressive high resolution, 262,000-colour display ensures easy viewing of the phone's multimedia applications.

GSM Tri-band: The SG-2520 is the only satellite tri-band phone that provides GSM mode connectivity on all 5 continents.

Once outside the Thuraya coverage area, you can use your phone within a GSM network range.

SO-2510: the world's smallest satellite phone

The SO-2510 is the smallest and most robust satellite phone in the industry. This satellite- & GPS-enabled handset delivers full user convenience and mobility.

Size matters: at 130 gm, the SO- 2510 is the world's smallest and lightest satellite phone ever made.

Wide-ranging services: Standard SO-2510 services include voice, data, fax, short messaging and GmPRS. In addition, the Global Positioning System (GPS) feature helps you reach your destination while traveling in remote and unconnected areas.
