

Communicate anywhere[™]

New generation Thuraya handset

Thuraya's new state-of-the-art phone is the first and only satellite mobile handset to offer GmPRS (Geo mobile Packet Radio Service) providing continuous Internet connectivity at speeds of up to 60 kbps.

With GmPRS, you can now make voice calls, browse the web, send and receive email, and even access your corporate network, all via the same Thuraya handset anywhere in over 110 countries.

Enjoy always-on Internet connection and a wide range of applications including:

- web browsing
- email, webmail
- content downloading
- File Transfer Protocol (FTP)
- Virtual Private Network (VPN)
- e-commerce

GmPRS is ideal for professionals on the move such as journalists, oil and gas workers, mining teams, NGO personnel and anyone working remotely in places with limited access to traditional telecom services.

SO-2510: the world's smallest satellite phone

The SO-2510 is the smallest, lightest and most affordable satellite phone in the industry. This satellite and GPS-enabled handset delivers full user convenience and mobility.

Size matters: at 130 gm, the SO-2510 is the world's smallest and lightest satellite phone ever made.

Wide-ranging services: Standard SO-2510 services include voice, data, fax, short messaging and GmPRS. In addition, the Global Positioning System (GPS) feature helps you reach your destination while traveling in remote and unconnected areas.
