

Communicate anywhere™

Iridium satellite phones

With the Iridium handheld service, you can communicate from any point on the globe, including oceans, airways and polar regions. No other satellite communications service offers such complete coverage.

The 9505A satellite phone is a great option for people who travel or work in remote areas. Small, lightweight and resistant to water, dust and shock, this phone is ideal for rugged conditions.

Key benefits

- Seamless coverage: keep in touch wherever you are worldwide.
- Reachability: you can be called on a single international phone whatever your location.
- Portability: a practical handheld phone makes travel easy.
- Email: use the data kit to exchange emails & small files.
- Extra services: with our SkyFile Mail messaging software, compress data by up to 90% before sending.

Key features

Stay connected everywhere:

- High-quality standard voice service.
- Advanced voice services: voicemail, call barring & call forwarding, call restriction, etc.
- SMS up to 160 characters.
- Fax & paging services.
- 2.4 kbps data services (dial-up, direct internet, SBD), with optional adapter.

Go further with SatComms

Our solution provides innovative inhouse features to enhance the Iridium service:

- SkyFile Mail: save time & money by compressing emails, e-faxes and SMS by up to 90% before sending. Includes a crash recovery function, anti-virus and an anti-spam filter.

- RUDICS: use RUDICS on SkyFile Mail to boost data communications via Iridium & improve connection quality, service availability and bandwidth. Reduces connection times by more than 50%.
- Online SIM card management: control your Iridium SIM cards online in seconds. Our online portal offers easy activation, supervision & traffic management.
- Traffic Monitoring System: supervise your SIM cards and call-time credit for each mobile.
- Prepaid SIM card: keep an eye on your expenses with the different Iridium prepaid vouchers.
