

SkyFile Mail – Address Book

E-mail addresses, fax and Mobile/Cell (SMS) numbers can be stored in the Address Book.

1. To open the address book, click the **Addresses** button (or go to **Configuration > Addresses...** from the menu options). Skyfile Address Book is also accessible via the **To:**, **Cc:** or **Bcc:** buttons in the text editors for E-mail, fax and SMS messages.

2. a) Add new E-Mail addresses, fax or Mobile/Cell (SMS) numbers by clicking on the **New** button
b) Edit existing E-Mail addresses, fax or Mobile/Cell (SMS) numbers by clicking on the **Edit** button
c) Delete existing E-Mail addresses, fax or Mobile/Cell (SMS) numbers by clicking on the **Delete** button
d) Import existing E-Mail addresses, fax or Mobile/Cell (SMS) numbers by clicking on the **Import** button
e) View existing standard Windows contacts (for example: Outlook Express) by selecting the field “**Use Windows address book**”
