

SkyFile C

Optimized message transmission for Inmarsat C

Emailing has never been easier or more cost-efficient - with our SkyFile C solution, an e-mail service for Inmarsat C.

SkyFile C optimizes message communications and reduces costs on Inmarsat C and Mini C. It is available on all Inmarsat C and Inmarsat Mini C terminals. It enables the user to send and receive e-mails as well as GSM-short messages (SMS). No extra hardware or extra-software is needed on the vessel and neither on the shore side.

- **Simplicity:** very easy to use; no need to in-stall dedicated software to access SkyFile C.
- **Free-of-charge:** no monthly fees or license costs; you pay for airtime only
- **Cost-efficiency:** reduce transmission costs by up to a third by sending ship-to-shore and shore-to-ship messages in 5-bit mode.
- **Dependability:** Reliable, secure data communication

Messaging & More

- Combining Inmarsat and GSM: send and receive SMS to /from any GSM phone worldwide via Inmarsat C.
- Complete, secure traffic management: users can control their communication costs by using filters:
 - Anti-spam & anti-virus
 - Black & white lists - subject keywords
 - Volume control
 - Message confirmation
- FleetNet announcement: send FleetNet messages via e-mail, TCP/IP, PSTN/X.25 (standard telephone network) and telex
- Tracking & fleet management: with Thrane&Thrane Capsat Manager, SkyFile C can track vessels using polling and data reporting via TCP/IP, PSTN/X.25, and even e-mail
- SkyFile C is fully compatible with Thrane&Thrane Easymai
